Cna online program

Get your cna online program guide

The CNA Online program is a challenge Program. Meaning your are using a combination of experience and education to become certified as a nurses assistant in California. The program is completely online with an option skills practice session available monthly.

Requirements to participate in this course are:

Caregiver/CNA EXP.
18 years or older
Clean background
SSN

How it works

There are 4 methods in becoming a certified nursing assistant in California. One of the methods is called the equivalency method. With this method, you can use a combination of experience and education. There is no minimum amount of experience necessary and you are required to complete at minimum a nursing fundamentals course. Our program assists you with meeting these qualifications and completing the application and exam.

Upon Enrollment in this course the student is required to pay a registration fee.

Upon payment of the registration fee, the student will receive registration forms via email to complete. The student must submit the registration forms and the payment arrangement forms prior to access to the course. Once the forms are received and processed the student will have access to the course within 72 hours. The student is not required to spend a certain amount of time on the course. The course can be completed at the students convenience. Upon completion of both the CNA challenge course and the nursing fundamentals course the student will receive a certificate of completion. Documentation of completion of the nursing fundamentals course will be sent to the department of public health. Once documentation is process by the department of public health and after successful completion and approval of the background check that the applicant must take prior to completion of the course, The student will be eligible to take the CNA examination for certification.

The CNA examination is performed by third-party vendor . The Cna examination fees must be paid by the student. Once the application has been received an authorization to test from the department of public health, The student must notify us to schedule the examination.

The student will only be able to take the examination once. If the student fails to complete the examination on the time scheduled or fails the examination, retest examination fees Will be required.

Cna Resource center also has optional skill session monthly that covers all the skills that are in the course. The CNA challenge online course includes demonstrations and step-by-step instructions on how to complete the skills that are on the skills exam. practice written test are also included in the course.

Upon successful completion of both the skills and written exam, the application will be issued a certification through the department of health.
